Southfields Primary School

Relationships and Sex Education Policy

Date agreed: January 2019
Review Date: September 2020

This policy, having been presented to, and agreed upon by the whole staff and Governors, will be distributed to:

- All teaching staff
- School governors

A copy of the policy will also be available in:

- The Staffroom
- The Head’s office
- School web site

This will ensure that the policy is readily available to visiting teachers, support staff and parents.

Southfields Primary is totally committed to social justice and improving life chances for potentially vulnerable children. It is dedicated to sharing its work and findings beyond the school to improve outcomes for as many children as it can reach and has a particular specialism in Speech and Language development.
Southfields Primary School believes:

- RSE is lifelong learning about ourselves including our emotions, self-esteem, relationships, rights and responsibilities, sexual behaviour, sexuality and sexual health. It takes place in many contexts: at home, at school and in the community.
- RSE is an entitlement for all young people. Difference and diversity must be taken into account when delivering RSE. Special educational needs or disability, gender, sexual orientation and age, nationality, religion, cultural and linguistic background, all affect access to RSE.
- RSE is most effective when provided in the wider context of social and emotional development. In schools, successful RSE is firmly rooted in personal, social and health education (PSHE).
- RSE must enable young people to gain information, develop and transfer skills and explore attitudes and values, in order support informed decision-making.

We, together with our community partners, are committed to working towards the implementation and development of the following entitlements.

**Children** are entitled to:

- Accurate, up-to-date, useful and appropriate information delivered in a way that meets their individual needs
- A well-planned, well-delivered RSE programme, which is flexible to cater for their changing needs over time
- Know where and how to access information, support and local services
- Be informed about issues of confidentiality and how it affects them
- Have their views and ideas received in a respectful and non-judgemental manner
- Be involved in developing and evaluating the content, delivery and timing of their RSE programme.

**Adults working with children** are entitled to:

- Access to high quality, up-to-date, accurate information, resources and training
- Mutual understanding of roles and responsibilities in relation to the planning and delivery of RSE
- Contribute their views and ideas in support of the development of RSE for children
- Professional guidance and support
- Opportunities to share good practice
- Be informed about issues of confidentiality and procedures to be followed

**Parents, carers and other adults in the community** are entitled to:

- Accessible, accurate, up-to-date, information delivered in a way which meets their needs
- A safe and supportive environment for their children
- Information on how and when RSE is taught
- Understand their rights and responsibilities in relation to RSE policy and curriculum
- Be informed about issues of confidentiality and how it affects them and their children
- Have their views and ideas received in a respectful, non-judgemental manner.
The Wider Agenda

RSE is part of the wider agenda of promoting positive relationships and sexual health for young people to which many individuals and organisations in our community contribute. Our RSE Policy contributes to meeting local and national priorities as described in strategies such as:

- Every Child Matters
- Healthy School Status
- Looked After Children
- Safeguarding and Child Protection

At Southfields RSE is set in the wider context of our school values and ethos:

- We promote a healthy, safe and caring environment for all pupils and staff.
- We provide a broad and balanced curriculum for all our pupils, which values their diverse backgrounds and needs.
- We promote pupil’s self-esteem and emotional wellbeing and help them to form and maintain worthwhile and satisfying relationships, based on respect for themselves and for others, at home, at school, at work and in the community.
- We prepare our pupils to confidently engage with the challenges of adult life.
- We provide sufficient information and support to enable our pupils to make safe choices.
- Through an enriched curriculum, we provide children, with opportunities to develop the necessary skills to manage their lives effectively.
- We help our children to learn to respect themselves and others and move safely from childhood, through adolescence, into adulthood.

Other school policies are relevant to our provision of RSE:

- PSHE and Citizenship
- Safeguarding and Child Protection
- Science
- Confidentiality
- Behaviour
- Anti-Bullying
- Inclusion, Equality
- Staff Health and Wellbeing
- Healthy Schools.
1. **Aims**

All adults will work towards achieving these aims for RSE in our school. We seek to enable our children to:

- develop interpersonal and communication skills
- develop positive values and a moral framework that will guide their decisions and behaviour
- develop an understanding of the importance of family life and stable relationships as a positive environment for bringing up children
- respect themselves and others, their views, backgrounds, cultures and experiences
- develop loving, caring relationships based on mutual respect
- be able to name the parts of the body and understand the process of human reproduction
- understand the reasons for and benefits of delaying sexual activity
- be prepared for puberty and the emotional and physical effects of body changes
- understand the attitudes and skills needed to maintain their sexual health
- recognise and avoid exploitative relationships
- value, care for and respect their bodies
- access additional advice and support.

2. **Delivering the RSE Curriculum**

Our Curriculum for RSE describes the elements which will be taught. The Curriculum is wholly consistent with the National Curriculum (2000), DfE and OfSTED guidance. It also reflects best practice described by the Sex Education Forum. Some elements of our RSE curriculum are part of the compulsory National Curriculum for Science (e.g. the biological aspects of puberty, reproduction and the spread of viruses) and some parts are based on the non-statutory PSHE guidance.

We consider RSE to be a continuous process of learning, which begins well before the children enter our school and continues into adulthood. We have planned a progressive curriculum appropriate to each age group. All adults working with children have a part to play in supporting the delivery of RSE.

**The objectives of the RSE Curriculum will be taught in:**

- PSHE through designated lessons, circle time, focused events, SEAL
- Other Curriculum areas, especially Science, English, RE and PE
- Enrichment activities, especially our assembly programme, SEAL programme, visits from the Life Education Centre, social skills groups, involvement in school trips and adventurous activities, activities carried out as part of our development as a health promoting school.
Specific Units of Work on RSE are planned into our teaching programme with content on Puberty being taught in Year 5 and revisited in Year 6.

We understand that at times children will benefit from varying methods of delivering the RSE curriculum. For example, we will use single-sex groups or small group teaching where this will help us to meet the needs of children more effectively, we will use team teaching where this enables us to best use teacher expertise. We will ensure there are positive educational reasons for each method of delivery.

**Responsibilities for Curriculum Delivery and Policy Implementation**

- We regard it as the shared responsibility of all adults working in the school to respond appropriately to a child’s request for information and advice. All staff are encouraged to access support from colleagues where necessary.
- The RSE curriculum will primarily be delivered by class teachers.
- Those delivering RSE will have responsibility for assessing children’s needs and selecting appropriate activities and methodologies to meet these needs, supported by the PSHE Co-ordinator.
- The PSHE Co-ordinator and governing body is responsible for reviewing and evaluating RSE at our school. The PSHE Co-ordinator will report to the Head Teacher in this task.
- Staff will be assisted in their planning and delivery of the ‘Curriculum for RSE’ by the PSHE Co-ordinator.
- Governors hold responsibility for the RSE Policy and will be assisted in monitoring its implementation by the PSHE Co-ordinator, Head Teacher and Senior Leadership Team.

3. **Teaching Methodologies**

3.1 **Ground Rules**

RSE is taught in a safe, non-judgemental environment where adults and children are confident that they will be respected. Specific ground rules will be established at the beginning of any RSE work, in addition to those already used in the classroom. They will cover the following areas:

- Appropriate use of language
- The asking and answering of personal questions
- Strategies for checking or accessing information.

3.2 **Answering Questions**

We acknowledge that sensitive and potentially difficult issues will arise in RSE as children will naturally share information and ask questions. When spontaneous discussion arises, it will be guided in a way which reflects the stated school aims and curriculum content for RSE. As a first principle we will answer questions relating to the taught planned curriculum for that age group to the whole class.
We will answer questions relating to areas beyond the taught planned curriculum for that age group, in a sensitive and age appropriate way only to the child or children who have asked the question. If a member of staff is uncertain about the answer to a question, or indeed whether they wish to answer it they will seek guidance from the PSHE leader and Senior Leadership Team.

When answering questions, we shall ensure that sharing personal information by adults, pupils or their families is discouraged. Where a question or comment from a pupil in the classroom indicates the possibility of abuse, teachers will pass this information to the designated person for child protection in line with school policy.

3.3 Distancing Techniques
In order to protect children’s privacy, we will employ teaching and learning strategies which enable them to discuss issues without disclosing personal experience. For example, we will use fiction, puppets, case studies, role-play, videos, theatre in education to enable children to share ideas and opinions and to practise their decision making skills in a safe learning environment.

4. Inclusion
At Southfields we understand the importance of ensuring that all children in our school receive their entitlement to RSE. We will carefully consider special educational needs or disability, gender, sexual orientation and age, nationality, religion, cultural and linguistic background when planning and delivering RSE.

In relation to nationality, sexual orientation, religion and cultural diversity, we value the different backgrounds of children and seek to promote tolerance and understanding when addressing different views and beliefs.

In order to ensure the RSE Curriculum meets the needs of all:
- We will not promote one particular lifestyle over another.
- We will not seek to gain consensus, but will accept and celebrate difference.
- We will encourage respect and discourage abuse and exploitation.
- We will not ask children to represent the views of a particular religious or cultural group to their peers, unless they choose to do so.

In relation to those with special educational needs or disability, we will review our RSE programme to ensure that provision is made for those with additional needs. We will consider:
- their level of vulnerability
- their need to learn and demonstrate appropriate behaviour
- their need to develop self-esteem and positive body image
- the need to involve all staff, including ancillary staff and carers, in policy development, planning and training
- the management of personal care
- clarity about sources of support for pupils.
5. **Resources**

We will primarily use the Cambridgeshire Primary Personal Development Programme and the resources recommended within it when planning and delivering the RSE Curriculum. We will avoid a ‘resource-led’ approach to delivering RSE, instead focusing on the needs of the children and our planned learning objectives. We will carefully select resources which meet these objectives. We will carefully evaluate teacher resources, leaflets and videos, before using them.

We will select resources which:
- are consistent with the Curriculum for RSE
- relate to the aims and objectives of this Policy
- are suitable to the age, maturity, needs, linguistic proficiency and ability of the children
- appeal to adults and children
- are up-to-date in factual content
- are produced by a reputable organisation
- do not show unfair bias e.g. towards a commercial product
- avoid racial, gender and sexual stereotyping
- encourage active and participative learning
- conform to the legal requirements for RSE.

6. **Use of Visitors/Outside Agencies to Support RSE**

At Southfields we believe that RSE is most effectively taught by those who know our pupils well and are aware of their needs. We encourage visitors to our school who may enhance, but never replace, our planned provision. We will work closely with visitors to ensure that the needs of our pupils are met.

We will follow this Code of Practice when working with visitors:
- The care and management of pupils is the responsibility of the school at all times.
- In class teaching situations, visitors will not be asked to work alone with pupils, but will be supported by a member of staff.
- The school will know whether visitors are DBS checked and arrangements will be made to accompany them as appropriate.
- All visitors will be made aware of the content and principles of this Policy, prior to their visit.
- All lessons will be planned in direct liaison with the PSHE Co-ordinator and the Senior Leadership Team, taking account of the age and needs of the group and the context of the work within the SRE programme.
- Visitors will be reminded that, whilst contributing to RSE in a classroom setting, they must adhere to the same confidentiality code as staff members.
- Any resources which a visitor wishes to use or distribute will be discussed and agreed with the PSHE Co-ordinator beforehand.
- The contributions of visitors will be regularly monitored and evaluated.
7. **Confidentiality**

In our school we have a clear and explicit Confidentiality Policy, which is shared with staff, pupils and parents/carers. This Policy is communicated to parents/carers on the School website and displayed in the parent’s entry lobby.

The policy states that:
- Staff are unable to offer absolute confidentiality.
- We will reassure children that staff will act in their best interests and that this may involve sharing information if the child is at risk of harm.
- Children will be told if information is to be shared (unless the child is very young or has significant special needs) and will be offered appropriate support.

Professionals, such as school nurses and youth workers, are bound by their professional codes of conduct when offering advice and guidance to individual pupils. This often involves offering a greater level of confidentiality to children than school staff are able to give.

However, in a classroom and other teaching situations when they are contributing to our planned RSE programme, they will follow the school’s Confidentiality Policy. Health professionals will ensure that children are aware of the boundaries of confidentiality when beginning work with them.

8. **Safeguarding and Child Protection**

We recognise that because effective RSE may alert children to what is appropriate and inappropriate sexual behaviour, there is an increased possibility that a disclosure relating to abuse may be made. All staff are aware of the Safeguarding and Child Protection procedures and will report the disclosure to the designated person for child protection immediately.

Computer networks, including those which may be accessed via the Internet, are important aspects of information technology education. However, they present possible risks to the spiritual, moral and social development of pupils, particularly in terms of the nature of some of the material which may be obtained via the Internet.

Internet safety is embedded within the Computing Curriculum. In addition, teachers teach other E-Safety lessons once per half term.

The Computing Coordinator meets with the Welfare Team and Headteacher once a week to discuss E-Safety and Safeguarding. Staff are kept up to date regularly on the latest online trends and threats to the welfare of our pupils, as well as any updates and changes to (online) safeguarding procedures.
9. **Sexually Active Pupils**

There are extremely rare occasions when a primary-aged child, who is sexually active or contemplating sexual activity, approaches an adult. If this occurs in our school, it will be viewed as a child protection issue. The designated member of staff will follow Safeguarding and Child Protection Procedures and seek advice from the relevant agency.

10. **Staff Training**

Teaching RSE can be very rewarding, but we understand that, in order to feel confident, staff need opportunities to develop the knowledge, skills and attitudes. We recognise that all adults have different personal beliefs and attitudes about RSE. We will discuss relevant issues and, where appropriate, arrange training to enable staff members to feel confident in delivering the Curriculum for RSE. We will also encourage the sharing of good practice. Those with special responsibility for the development of RSE will be offered opportunities to consult with advisors.

11. **Role of the Governors**

This Policy describes the governors’ views on how RSE will be delivered in addition to requirements of the National Curriculum.

It is the responsibility of the governors to ensure, through consultation, that the RSE Policy reflects the wishes of the parents and the views of our community. It is the responsibility of governors to ensure that the Policy is made available to parents.

In order to facilitate this process, the RSE Policy will appear annually on the agenda of a governors’ meeting. The Policy will be made available for parents/carers on the school website and displayed in the parent’s entry lobby also a link governor for PSHE (including RSE) will be nominated.

12. **Pupil Participation**

We will involve children in the evaluation and development of their RSE in ways appropriate to their age:

- We will engage the children in assessment activities to establish their development needs, for example ‘Draw and Write’ activities
- We will encourage children to ask questions as they arise by providing anonymous question boxes.
- We will ask children to reflect on their learning and set goals for future learning.
- We will consult children (e.g. through School Council) about their perception of the strengths of our RSE programme and the areas to be further developed.
13. Working with Parents/Carers and our School Community

Parents and carers are the key figures in supporting their children through the emotional and physical aspects of growing up. We recognise that many children would prefer to receive information about RSE from their parents and carers. Therefore, we seek to work in partnership with parents and carers when planning and delivering RSE.

We will encourage this partnership by:

• Informing parents and carers by letter or leaflet of forthcoming RSE topics
• Gathering parents’ views on the RSE Policy and taking these into account when it is being reviewed
• Informing parents and carers about the RSE programme as their child joins the school through the school brochure/prospectus
• Providing supportive information about parents’ role in RSE
• Inviting parents to discuss their views and concerns about RSE on an informal basis.

Parents and carers have access to this Policy it will be available on the school website and displayed in the parent’s entry lobby.

Parents and carers have the right to withdraw their children only from all or part of those elements of RSE which are not included in the statutory national curriculum Programmes of Study for Science. They are able to withdraw their children from those elements which fall within the non-statutory guidance for PSHE. The school will make alternative arrangements for children whose parents or carers withdraw them.

Any parent or carer who wishes to withdraw their child should, in the first instance, contact the Headteacher to discuss the matter. We will enable parents wishing to withdraw their children from the non-statutory elements of RSE to access the leaflet ‘RSE and Parents’.

14. Monitoring, Evaluating and Reviewing the SRE Policy

Monitoring and evaluation of the Policy is the responsibility of the governing body. Information will be gathered from the Head Teacher, the PSHE Co-ordinator and parents to inform judgements about effectiveness.

We are committed to working towards the delivery of the entitlements and the provision of the curriculum for RSE.

• We will reflect on our contribution to the provision of the Entitlements for RSE and seek to develop this.
• We will continue to work in partnership with parents/carers and members of our community to ensure the delivery of high quality RSE for our children.

The Curriculum Committee of the governing body monitors our RSE policy on an annual basis. This committee reports its findings and recommendations to the full governing body, as necessary, if the policy needs modification. The Curriculum
Committee gives serious consideration to any comments from parents about the RSE programme.

15. Sensitive Issues

15.1 Puberty
We will teach about puberty in Years 5 and 6, in accordance with our Curriculum for RSE. Younger children may be aware of puberty and we will answer their questions appropriately on an individual basis. We recognise the importance of ensuring that both boys and girls have a good understanding of puberty before they reach it. If a younger child appears to have an advanced physical development, we will consider whether they too should be involved in lessons about puberty. This will always be done in consultation with parents. We may use single sex groups to address particular needs, such as girls’ practical need for information about managing periods.

We will ensure that sensitive arrangements are made for girls who have started menstruating. This includes the provision of sanitary disposal units and the discreet provision of ‘emergency’ sanitary protection. Staff will respond to such requests discreetly, in a helpful way without embarrassment.

15.2 Contraception
We recognise that many primary-aged children are aware of some forms of contraception and have begun to understand that adults do not only engage in sexual activity when they wish to reproduce. Children may ask direct questions about contraception, or may reveal knowledge (accurate or inaccurate) about contraception in discussion with adults or their peers. We will refer to guidelines and answer children’s questions in general terms, this will enable pupils to further understand the responsibilities of adult life.

There are extremely rare occasions when an adult in a primary school may believe that a child’s question about contraception derives from a child’s own sexual activity or contemplation of sexual activity. In this case, the adult will consult immediately with the designated teacher for child protection, who will make sensitive arrangements, ensuring there has been discussion with the child and explanation of the Confidentiality Policy, to involve the child’s parents and, if necessary, other professionals.

15.3 Abortion
We recognise that some children might be aware of abortion and that they might be developing attitudes towards it. They may also ask questions about it. Adults in schools will acknowledge these questions and respond generally to factual enquiries on an individual basis, rather than in a whole class discussion.

Sexually Transmitted Infections (STI’s) and HIV/AIDS
We will not teach directly about STI’s, however elements of our RSE and Science Curricula will prepare the ground for this explicit teaching later. We will discuss
the different ways any disease might be spread and steps a child might take to reduce this. Some children will be aware of STI’s or HIV/AIDS and may ask questions about them in relation to RSE or perhaps drug education. Adults in school will acknowledge these questions and respond generally to factual enquiries on an individual basis, rather than in a whole class discussion.

15.4 Sexual Identity and Sexual Orientation
We understand our responsibility to ensure that RSE meets the needs of all our pupils. Whatever their developing sexuality, children must feel that RSE is relevant to them and sensitive to their needs. We will not teach directly about sexual orientation, but acknowledge that many children will be aware of both heterosexual and homosexual relationships and may ask questions about these. We will answer these questions factually, in a general way, seeking to challenge prejudice. We will discuss different family arrangements, including same sex partners, when considering relationships. If we encounter examples of homophobic language or attitudes we will challenge these. Incidents of homophobic bullying will be dealt with according to our Anti-Bullying Policy which explicitly refers to homophobic bullying.

This policy is consistent with current national legislation. It is also consistent with current national guidance ‘Sex and Relationship Education Guidance’

Our Policy reflects the view of SRE contained within the Schools White Paper ‘The Importance of Teaching’, that children need high quality RSE, so they can make wise and informed choices. Our Policy also reflects recommendations from OfSTED and the Sex Education Forum.

We are engaged in the following areas of work, which support this policy and the delivery of effective RSE: Social and Emotional Aspects of Learning (SEAL) Programme, continuing work within the Primary Personal Development Programme, developing as a health promoting school.

For more Government information please see the Policy Statement: Relationships Education, Relationships and Sex Education, and Personal, Social, Health and Economic Education also available on our website.
